

THE TEEN BRAIN

Development, Alcohol, and Decision Making

This period of growth and development makes teens especially vulnerable to the effects of drugs, tobacco, and alcohol. Alcohol may have significant impact on brain construction, learning, and memory. This session is designed to present information about the teen brain, makes recommendations for adults and parents, and highlights the positive and wonderful characteristics of adolescence.

THURSDAY, MAY 7, 2015

9:00AM – 4:30PM

Embassy Suites – Newark | Wilmington South

654 College Avenue, Newark, DE 19713
